Metal Report of the Success of Co

FROM ST. LOUIS.

ms visit to Ohio.

Sr. Louis, Monday, Ang 8.—The following are among the court martial sentences just reported:
Charles Benton, company E, 7th Dilinais cavalry, charged with sleeping on his post—acquitted.
Tillman Silly, company M, 7th Illinois cavalry, for disobedience of orders in allowing too much liberty to Capt. Thrailkill, a rebel prisoner at Alton, now binais whocking in Missouri, by which he made his eccape, to forfeit ten dollars of his pay, the court being lenient in consideration of the youth and incaperionee of the accused.

Pred Blunians, a noted counterfeiter, who escaped from Col Baker, U. S. detective, last week, was re-arreated on Saturdry, and will be sent to Washington.

Brig. Gen. Loan, Imspector General of this department, recently assigned to duty in Gen. Capt's department, will leave to-day for New Orleans.

J. R. Barilett, ex-member of Congress from this district, who was arreated by the Provost Marshal on Friday last, has been released on \$3,000 bonds.

[Correspondence of the Rvening Post.] RELEGA, ARE., July 80, 188 20th, and marching to the ferry were attacked very flercely at daylight by the commy. The line of battle was quickly formed, and for 5 hours the infantry held their ground, repuls-

possible comes like Generategous borks commorphism obeyes where, here have men to be a commorphism obeyes where here to be a commorphism of the great and the control of the state of particular decorations. Here the control is also a long to the control of the control of

glona, it sets in a southerly direction, and that he becoming the scene of excitament. Husb Valley, forty miles south of sait Lake. City, is being extensively prospected, and it said to promise well, the ledges being chiefly gold yielding quarts. But the place now exciting most interest among miners and gold seekers generally, is Ran Canon.

This Canon is situated about 310 miles southwest of Sait Lake City, on the overland mail line. It is a deep narrow valley shout two miles in length, lying between mountains half a mile in height. At its head is a beautiful town wite, already staked out, being a lovel plat about one mile across, alundantly watered with fine aprings, from which a stream sufficient for all mining purposes flows through the valley. The largest mountain on the porth side so far as examined, has proven to be very rich in gold, the principal fode yielding fram fifty cents to one dollar to the pound of quarts. This ledge is known as Gold Canon, and has been taken up by saldiers from Fort Ruby, by whom it was first discovered some time last Autume. The first ledge was opened in March last, and several large companies are already execting log or adobe buildings and precaring to put up quarts mills for crushing the rock. The principal mines, so far as tereloped, saide, from that named above, are aliver. The rate of \$000 per ion of the rock taken from the river in the continue. But the show for mistal is said, by old miners, to be equal to anything they ever saw in the quarts of California. Nevada is one of our most promising territories. It is evidently rich in mineral, chefty dilver, with a fair proportion of gold and gaicens. While for farming and graing purposes many of its valleys and mountain sides are well adapted. The political sentiment of the territory is much better than that of Utab. It is a notable fact, however, that as the mining districts fill up, the prevailing sentiment becomes more doubtful. One Blake, of Scholl Creek, recently undertok to be able to state that the Sanlary Commission

Naw Yosis. August 5th. Advices from Newbern, N.C., sayig The expedition which General Palmer reconcily sent from here to the Cuo was river, in combinate of Lieutenant Ware, of his staff lies resurred with one hindred and three bales of colton said a larger assessment of tobacco, captured

ing of the carth, and every precaution taken to prevent section of the work. The lucination newer, the work are the lett wing of the rebel fort and, believing that we have been and the section of directing the right lateral gallery underneath the parapet of that wing, exerted of directing the right lateral gallery underneath the parapet of that wing, exerted of directing the right lateral gallery underneath the parapet of that wing, exerted are the work at that point as at any other. The length of the right chamber was thirty-eight, and of the left, which, in part, was situated directly heneath the robe parapet, thirty-even feet.

On the 26th uit, everything was in readiness for the charge, consisting of \$0.00 pounds of powder, not 13,000 pounds, as has been erroneously stated, which was placed in eight different chambers, each containing 1,000 pounds. Between these chambers, On the springing of the mine three ordinary ince sech one spit, and all lightly tied together, were used. The landing or charge set of the work of the habor.

The work work was commenced at 4, was secomplished without accident at 10 p m; and on the 20th uit, then hime was ready for explosion. A few days were necessary, however, nor the consummation of a place of strategy which, although completely accessful in its object, ultimately failed to accomplish more than recovered. The brilliant affair reflects additional credit upon General Palmer, whose efforts since assuming command here fave been crowned with grail access.

It now appears that the rebel ram Albemarie, in the sugmement of Frymouths, would have russed the white fag if our gamboats had given be commander an opportunity to open her port-holes for that purpose, as he expected she would go down below reaching Plymouth.

The enemy have

CAPTAIN SEMMES AND THE ENABARGE.

(Prom the Atlants Appeal.)

Notwithstanding his great and raluable services Captain Semmes will, no doubt, receive the censure of the country, and ineas the displeasure of his government, for having accepted the challenge of the Kamsarge, by which he lost his own noble vessel. As the Sibbanas was not, is the strict sense on the word, a vessel of war, it was no part of Captain Semmes' duty to enage in mortal combat with the enemy on any other pretext than that of self-protection. It was ratued his duty to have abananed a condict with the creamy when it was in his power to do so. We fear it will be lang before we shall loof upon the like of the Alabama again. SAD CASUALTY. Church Struck by Lightning-Nine Persons Killed. The Johnt Signal gives the tollowing do lightning. The electricity first atruck the top of the steeple and passing down sepa-ter into different currents, splintering the timbers in various directions. Services were progressing at the time, and the church was rilled with combination. tian described. The density of the anoke led to the belief that the church was on the A rash was made for the doors and y indows, and had it not been for the timely almonitions of the venerable pastor, who did not less his presence of mind, the list of killed and injuried might have been numbered by nurdreds. As it was, the rush was great, the windows were broken and the doors forced off their hinges by the escaping cowd. When the terror and excitement had somewhat shated, the killed and injured were looked after. They were carried outsinto the rain, which soon revived those who had been knocked down and atunned. The following as allst of the killed: Mrs. Hartman, wife of Jacob Hartman, aged 35 years—leaves three children, the youngest six weeks old; Mrs. Ingler, wife of Phillip langier, aged 55 years—like the children, the youngest six weeks old; Mrs. Ingler, wife of Phillip langier, aged 55 years—like the children, the youngest six weeks old; Mrs. Ingler, wife of Phillip langier, aged 55 years—like the children, the one may be the children of the children of N. Young, 1ste Street Commissioner, aged 15 years—whether the congregation was more or less affected.

served Testimonial to Dr. Ayer

posit. They robbed the mail coach near Mt. Vernon, forty milies from here, a few days since, and took \$4.000 in gold from the passengers. They cisim to be operating in coancetion with a large force, which designs to attack this city. A small party came upon their camp on Saturday, fired into it, and fied, not knowing the strength of the enemy. The guerfills also existered. The next night the same party visited the samp, and found a large quantity of etolen property—horses, gold dust and greenbacks; also a record of their operations on the route from Texas, showing they had captured two trains on the Arkanasa Ruter. It is supposed that a Rebel organization in this city, numbering several hundred, is ready to ald the guerillas whenever they attack the place.

Important Expedition by Gen. asboth.

New York, Aug. 6.—Late advices from Pensacola say that on the 18th of July, Gen. Asboth, with a force comprising the Th Vermont, Sat United States colored infantry, let Florida cavalry, dismounted, and Company M. 14th New York eavalry, together with the 1st Florida battery, mared out from Pensacola to co-operate with a raiding force from Sherman which was operating a sainst the Brobile & Great Northern Railroad. On the next day he encountered a rabel force composed of Companies is, E and I of the 3d Alabama regular cavalry, numbering 350 men, strongly fortified at Camp Gonzales, fifteen milies from Pensacola. After a pincky fight of a half hour the rebells ran, leaving as spoils to the victors the regimental flag, all their official pagers, a considerable quantity of camp and Quartermaster's stores, seventeen horses with equipments, eighteen sabres, eighteen guns, a large quantity of ammunition, and twenty-three head of eighteen described to the continued his march, in tending to hun a treatile work on the rainroad, near the Escambia River, but receiving information that Sherman's force had accompliance its work without his assistance, he LATER FROM EUROPEtrival of the Hibernian -in Armis-tice Between the Danes and Ger-mans.
